

## Industry

-  [Retail and E-commerce](#)
-  [Finance and Banking](#)
-  [Healthcare and Medicine](#)
-  [Media and Entertainment](#)
-  [Manufacturing and Logistics](#)
-  [Travel and Hospitality](#)
-  [Marketing and Advertising](#)
-  [Legal and Government](#)
-  [Tech and Software Development](#)
-  [Education and Research](#)
-  [Sustainability and Social Impact](#)
-  [Pushing the Boundaries](#)
-  [Creative Expressions](#)
-  [Unexpected Applications](#)
-  [Agriculture and Sustainability](#)
-  [Creative Fields](#)
-  [Customer Service](#)

## AI Field

### Machine Learning

[How Machine Learning is currently used](#)

[Machine Learning Predictions](#)

### Natural Language Processing (NLP)

[How Natural Language Processing is currently used](#)

[Natural Language Processing \(NLP\) Predictions](#)

### Large Language Models (LLM)

[How Large Language Models \(LLM\) is currently used](#)

[Large Language Models \(LLM\) Predictions](#)

### Text-to-speech and Speech-to-text (TTS/STT )

[How Text-to-speech and Speech-to-text \(TTS/STT \) is currently used](#)

[Text-to-speech and Speech-to-text \(TTS/STT \) Predictions](#)

### Computer Vision Predictions

[How Computer Vision is currently used](#)

[Computer Vision Predictions](#)

### Robotics

[How Robotics is currently used](#)

[Robotics Predictions](#)

### Knowledge Representation and Reasoning (KR&R) - Analysis

[How Knowledge Representation and Reasoning \(KR&R\) is currently used](#)

[Knowledge Representation and Reasoning \(KR&R\) Predictions](#)
